

Hunter PRIMARYCARE

ABORIGINAL HEALTH & WELLBEING

*Improving health outcomes for
Aboriginal and Torres Strait Islander
people, by helping you learn the
skills to manage your own health
and wellness journey*

ABORIGINAL OUTREACH

Our Aboriginal Outreach team can link you with service providers, so you feel more connected to your community and services.

CARE COORDINATION AND SUPPLEMENTARY SERVICES (CCSS)

Our Care Coordinators are here to ease the stress and confusion that comes along with having a chronic condition. We are committed to helping you identify your health needs so you can self-manage your condition. Our staff will assist you by organising appointments, transport, health aids and identifying funding opportunities to support your health needs.

YUDHILIDIN

If you identify as someone who has significant mental health and other issues, your Yudhilidin Care Coordinator will assist you with accessing support from a GP and other health and mainstream services, to work with you to improve your health, social and emotional wellbeing.

PSYCHOLOGY SERVICES: YARN

Our Psychology Services team provide culturally appropriate services to Aboriginal and/or Torres Strait Islander people who are concerned about their mental health and need assistance to cope with everyday life and stressful events that may come up.

For information regarding any of our Aboriginal Health and Wellbeing services, speak with our team today.
